

Accessories for Hope/Carnfeldt processors

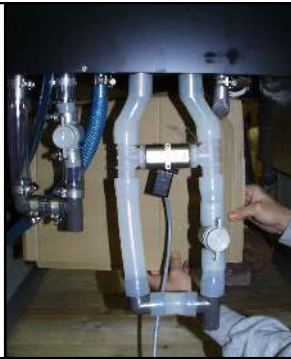

Rack hoist

The rack hoist enables one person to lift out the racks from the processor for regular maintenance and cleaning. The rack hoist is mounted on the side of the processor and is easy to operate. Standard height: 179-209 cm.

Order no.

EG 751	: 315017
EG 901	: 320017
EG 1371	: 340009
EG 750/EP 750	: 316020
EG 900/EP 900	: 320019

Automatic Drain valve kit

Prevent algae in the water tank

Automatically empty the water tank using the 7 days timer and this kit for emptying the water tank. The tank will start emptying 1 hour after the programmed time for night mode, likewise the wash tank will start filling 1 hour before the programmed time to go into ST. by mode.

Order no.

All models	: 305910
------------	----------

Floor drip tray

By initially placing the processor on a drip tray spillage of chemistry on the floor is prevented.

Order no.

EG 750/EP 750	: 315281
EG 751	: 320291
EG 901/EG 902	: 320291
EG 900/EP 900	: 320291

Anti-algae dosing pump kit

Stable dosing pump system to add 0,1% anti algae agent
Anti-algae agent added proportional with the amount of water.
Stable concentration of anti-algae agent regardless of water consumption.

Order no.

Anti algae dosing pump kit	:305945
----------------------------	---------

Repl. container 30 l with low level alarm sensor

Repl. container for dev. and fix., with low level alarm sensor.
Warning in display when containers are empty. Repl.pump waits until refilled.

Order no.

For all EG models	
Dev. repl. container	: 305549
Fix. repl. container	: 305559

Waste container 30 l with alarm sensor for max. level

Level alarm sensor (low)

When the sensor is connected to the processor's control box it starts an alarm and stops the replenish pumps if the level in the replenishment container gets too low

Order no. Level alarm sensor (low)

For all models (High Level)	: 305569
-----------------------------	----------

Order no. Level alarm sensor (low)

All EG models (low Level)	: 305529

Accessories for Hope/Carnfeldt processors

Chemical Mixer

The chemical mixer will mix concentrated liquid developer and fixer with water in a pre-adjusted mixing ratio and feed it to the processing tank of the processor as replenishment.

Order no.

For all models: : 305581

Installation kit

To ease installation a complete installation kit containing all needed tubes, cable, hoses etc. is available.

Order no.

For all models : 217659

Mobile rack hoist

The mobile rack hoist enables one person to lift out the racks from the processor for regular maintenance and cleaning. It includes a drip tray to prevent spillage of chemicals when transporting the racks to the sink for cleaning. Standard height: 222-242 cm. The rack hoist can be parked over the processor.

Order no.

EG 1371 : 155738

EG 1661 : 350738

Trolley for Ø31 Repl bucket

Easy handling of the replenishment containers.

Makes it easy to stow away the containers after mixing of new chemistry.

Order no.

Trolley for Ø31 Repl bucket : 217058

Replenishment container

Repl. container for dev. and fix.
Available in 30 l and 70 l.

Order no.

Dev. repl. container (30 l) : 217049

Fix. repl. container (30 l) : 217059

Dev. repl. container (70 l) : 68844

Fix. repl. container (70 l) : 68521
